

Supplier's Declaration China RoHS

Stäubli Electrical Connectors (hereinafter referred to as "STÄUBLI") is aware of the Administrative Measures on the Restricted Use of Hazardous Substances in Electrical and Electronic Equipment in China – so-called China RoHS. STÄUBLI has every intention to contribute to the continuing process for obtaining a cleaner and healthier environment. We are continuously improving our products and processes.

All electric and electronic equipment (EEE) (= open scope) that are not part of the first batch (only 12 products), may in principle contain the 6 restricted substances above the limits, but have to be marked according to SJ/T 11364-2014 and SJ/Z 11388.

This document is a letter of intent to declare that those items produced and sold by STÄUBLI which contain restricted substances above the limits will be correctly marked according to SJ/T 11364-2014 and SJ/Z 11388 and a tabular list of the substances contained will be attached.

Place/Date of issue
